

2020 ASME BPV III Division 5 Workshop on High Temperature Reactors

TerraPower Copyright (2020)

What you will learn about ...

- What advanced reactor developers need to know about the High Temperature Reactor design rules
- How the High Temperature Reactor rules differ from Section III, Division 1 rules for design
- How to design reactor components with modern analysis tools and follow code rules
- How to introduce new high temperature materials into the code

Opportunities for collaboration ...

- Learn from other reactor designers who have an opportunity to give an overview of their technologies
- Discuss possible improvements and additions to the code that are necessary for advanced reactor designs
- Learn how reactor vendors can get involved to influence code rule development

Date and Location ...

- Date: Sunday, May 10, 2020
- Time: 8:30 AM – 5:00 PM
- Location: Aurora, Colorado (co-locate with ASME Boiler Code Week)

Pre-Register by March 13, 2020 ...
