

# Shaping our CARBON-FREE FUTURE

#GAINCarbonFree

## Reimagining Energy - Webinar #2

April 20, 2021, 9:00 am – 11:00 am MST

*Explore the evolving role of various energy sources and the new uses enabled by innovation. Future energy systems will be sourced with a sustainable supply chain. Imagine a future of energy that is more integrated and customized to local needs. Our speakers will share how thinking far into the future is shaping their work today.*

*Join us as we examine the opportunities, challenges, and innovations needed for Shaping our Carbon-Free Future.*
